PROFILE

Social media intern and studio co-founder who edits, shoots and plans content for growth. I pair a BSc in Data Science and Google Analytics (GA4) certification with hands-on video editing, content creation and AI prompting, so I can make the content and measure what it does. I build fast with AI tools and like making websites in plain HTML.

EXPERIENCE

Social Media Intern · Host2Unlimited
Sept 2026 – Present

- Edit short-form videos and reels for the company's social channels, focusing on strong hooks, on-screen captions and tight pacing.
- Create content end to end: scripting, appearing on camera and shooting behind-the-scenes footage on location.
- Plan creative strategy for the company's growth: what to post, in which format, and why.
- Build and update web pages in HTML when the business needs them.

Co-founder · Cadre Studio
cadrestudio.in

- Co-run a visual studio for brands and businesses with a strategy-first approach to creative.
- Deliver social media content, brand identity, real estate visuals, product composites, campaign design and digital invites.
- Served 4+ clients so far, from brief and concept through to final, platform-ready files.

PROJECTS

Property Inventory Management System
2026

- Built a spreadsheet-based system for a practising real estate agent to track listings and their status in one place.
- Used Claude (AI) to structure the logic and templates around the agent's daily workflow; delivered a no-cost tool adopted on day one with no training.

Real-Time Fitness & Nutrition Advisor Chatbot
2026

- Final year project: a chatbot giving personalised workout, calorie, meal-plan and BMI guidance from a user's goals, diet and activity level.
- Built in Python with NLP techniques, rule-based logic and decision trees for real-time, context-aware conversations.

Personal Portfolio Website
2026

- Designed and published an animated one-page portfolio in HTML, CSS and JavaScript on GitHub Pages, with video work, projects, a travel photo wall and a downloadable CV.
